I am a Ph.D. student at East China Normal University, advised by Prof. Junqing Gong and Prof. Haifeng Qian, and expect to graduate in 2027. I received my B.Sc. in Information and Computational Science from the same university in 2022. My research interests lie broadly in the construction of advanced cryptographic primitives, with a current focus on attribute-based encryption, functional encryption, and registration-based cryptography.

Education

2023 – Present: **Ph.D. (Expected to graduate in 2027)**, *East China Normal University*, Shanghai, China
Advisors: Prof. Junqing Gong, Prof. Haifeng Qian

2022 – 2023: **Master Phase. (Integrated Master-PhD Program)**, *East China Normal University*, Shanghai, China
Advisors: Prof. Junqing Gong, Prof. Haifeng Qian

2018 – 2022: **B.Sc. (in Information and Computational Science)**, *East China Normal University*, Shanghai, China
Thesis: Research in Mathematics of Fine-Grained Security

Research Interests

Attribute-based Encryption, Functional Encryption, Registration-Based Cryptography
